Food Hygiene & Safety

FS014

Food Hygiene & Safety

The European Parliament Hygiene of Foodstuffs Regulation (EC) No. 852/2004, Annex II, Chapter XII states that “food business operators are to ensure that food handlers are supervised and instructed and/or trained in Food Hygiene matters commensurate with their work activity”.

The ‘Food Hygiene & Safety’ course is designed for food handlers who require knowledge of food safety principles in a food manufacturing environment. Having acquired this knowledge, food handlers will be better equipped to deliver a safe product to consumers on a continuous basis.

On completion of the course, delegate’s knowledge will be assessed via a multiple choice exam (optional).

This course is available for virtual delivery (1 face-to-face training day typically translates into 2 to 4 virtual sessions per day, this is determined by the specific course content. Number of sessions and specific session times will be confirmed in advance of course delivery.)

Duration & Price

Duration: 0.5-1 day

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

In-Company Training
