ISO 14001:2015 Overview (EMS)

This course is designed to provide a step-by-step guide to the requirements of ISO 14001:2015. It is structured to give participants an understanding of how to design and implement an EMS within their own organisation.

The course addresses the requirements of ISO 14001:2015 and will incorporate examples of documentation required for ISO 14001 and will be practical in nature.

The course will also be of interest to companies who do not necessarily wish to move towards formal certification of their EMS but who wish to reduce their impact on the environment and incorporate best environmental practices.
